Week 1

Demos, Critiques and Assignments

In todays class we focused on blocking in the forms of the Ear. We looked at the most essential angles and planes. Like we saw in the Bargue images. Then we Sketched in with paint and mixed up 3 values a light, mid and dark. The values and shading rely on our proportions so we sent some time getting those right. Then we extended the value range and took a closer look at hard soft and lost edges

- Try to get your painting as far along as the demo.
- Class Recordings are deleted 60 days after the initial recording.
- Make sure you upload your pic by Tuesday evening at 9pm. (9pm wherever you are in the world :)
- Late submissions are not critiqued
- Ideally this exercise should take about 2:30-3:30 hours

The screenshot shows a critique window titled "Oct Week 1 Critiques" by Dominique Medici. At the top right, there is a user profile for "Dr. Gabor Mate.jpg" with a pink plus icon next to it, circled in orange. Below the title, there are three image thumbnails: a reference photo of a man's head, a yellow drop zone with a dashed border and the text "Drop files anywhere to create a new post" (circled in orange), and a painting of an ear titled "EAR week 1". At the bottom right, there is a red circular button with a white plus sign.
